Capital Expenditures	254	124	105%

### Revenues

The Turkish automotive industry grew by 11% YoY in the first quarter of 2013, driven by the growth in the PC segment. Declining interest rates, model year change and improvement in consumer confidence were the main factors driving PC sales growth. As a result, the share of PCs in the total industry increased by 4 points YoY, to 72% whereas LCV segment share dropped from 14.5% to 12.8%. PC and MCV sales grew by 17.3% and 2.7%, respectively, YoY, while the contraction in LCV and heavy truck segments continued at 2.5% and 21.8%, respectively. Ford Otosan's retail domestic sales increased by 5%YoY and reached 19,543 units, ranking 3rd in the total industry with 12.3% share. Domestic revenues increased by 11% to TL774 million, driven by 13% increase in domestic wholesale volume. Export revenues increased by 5%, while export units were up by 6%, thanks to our diversified export markets and new products. Total revenues were TL2,571 million, up 7% YoY.

### Operating Profit and EBITDA

Operating profit was TL139 million, down by 10% YoY. Operating margin was 5.4%. EBITDA was TL183 million, down by 5% YoY. Aging product portfolio, stock clearance campaigns for 2012 model year vehicles, which had a higher share compared to 2013 model year vehicles in the first quarter, and the devaluation of Turkish Lira against Euro were the main culprits behind the decline in profitability. EBITDA margin was 7.1%.

### Profit Before Tax and Net Income

Profit before tax was TL135 million, down by 15% YoY.

Net income was TL176 million, up by 7% YoY and higher than profit before tax, due to the establishment of deferred tax asset based on the future tax benefits from the investment incentives. Net income margin was unchanged at 6.8%.

<b>Sales Volume by Model</b>	<b>31.03.2013 (Units)</b>	<b>31.03.2012 (Units)</b>	<b>Change (Percent)</b>
